- CUISINE:** Our Global Asian Cuisine concept was developed from the use of different Asian techniques and ingredients to create dishes that are traditional in concept yet unique in presentation and together create a global appeal for all palettes to enjoy. Our menu is an exploration on the variety of what Asian cuisine has to offer.
- BEVERAGES:** Our selection of beverages was developed to complement the dining and lounge experience. Our cocktail list is made up of a variety of spirits, mixed with the same unique Asian ingredients that are used in our kitchen to create a different take on some familiar favorites. Our wine list was developed with our food in mind by one of the best sommeliers in California. With the difficult pairing of wine and Asian food, varieties were chosen that we feel would best work with our menu. This is a large selection of lighter wines, to go with the spices but we have some bold reds that will complement our heavy meats.
- SEATING:** There are two rooms to MERCURY LOUNGE. The main dining room has 50 seats for sit down dining; a communal table can hold 8 as well as 8 seats at the bar. The lounge area has a dining booth that can hold 6 people, bar seating of 8 and there are three semi-private booths, one booth holds 6 people and two that can hold 4 each.
Total seats: 98
- PRIVATE EVENTS:** Both rooms are available for private events. Each room is equipped with a full bar, large flat screen TV and music system. Lounge area can accommodate 40-50 for standing reception, and the dining area can accommodate about 85 for standing reception.
